

Go to website using <https://tnsaledeed.com/>

Then login using ur credentials – Email address and pass:

Now ur inside ur login page dashboard where u can generate a sale deed.

A screenshot of the "Tamil Sale Deed Drafting Assistant" dashboard. The title "Tamil Sale Deed Drafting Assistant" is at the top, followed by a sub-instruction: "Automatically draft a Tamil sale deed by providing the necessary documents." Below this, there's a section titled "1. Upload Your Documents" with the instruction: "Please provide all four PDF documents to proceed." It features four dashed rectangular input fields for file uploads: "Sample Sale Deed" (with "Click to upload or drag and drop" and "PDF only" instructions), "Seller's Aadhaar Card" (with "Click to upload or drag and drop" and "PDF only" instructions), "Buyer's Aadhaar Card" (with "Click to upload or drag and drop" and "PDF only" instructions), and "Seller's Previous Sale Deed" (with "Click to upload or drag and drop" and "PDF only" instructions). At the bottom center is a large blue "Draft Sale Deed" button.

First u should upload any sample sale deed format that u have to get the sale deed in that particular format.

1. Upload Your Documents

Please provide all four PDF documents to proceed.

Sample Sale Deed: Sample saledeed.pdf

Seller's Aadhaar Card: seller aadhar.pdf

Buyer's Aadhaar Card: buyer aadhar.pdf

Seller's Previous Sale Deed: 1999-2021.pdf

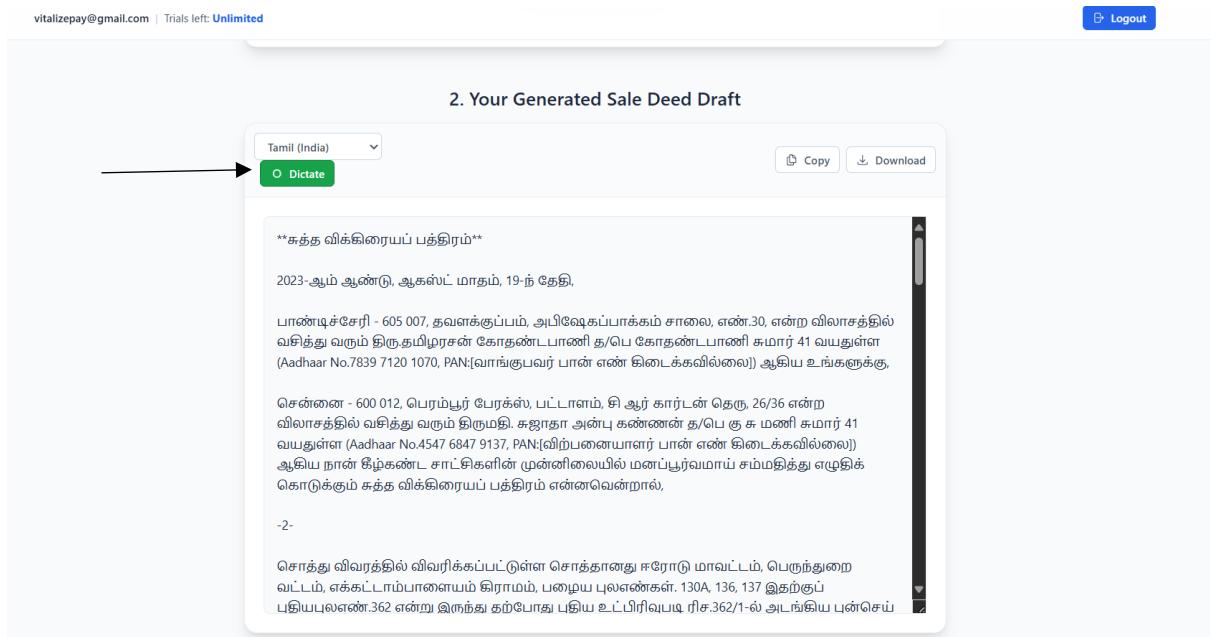

Draft Sale Deed

A red arrow points from the "Buyer's Aadhaar Card" input field towards the "Seller's Previous Sale Deed" input field.

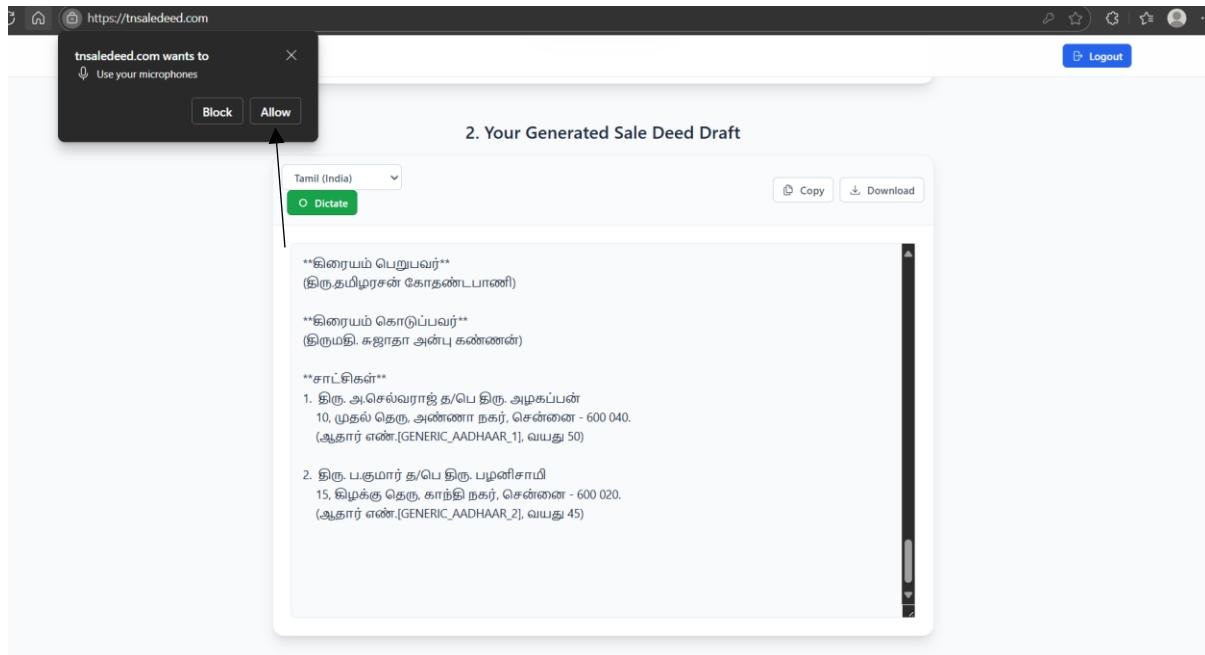

After uploading all the documents then click draft sale deed.

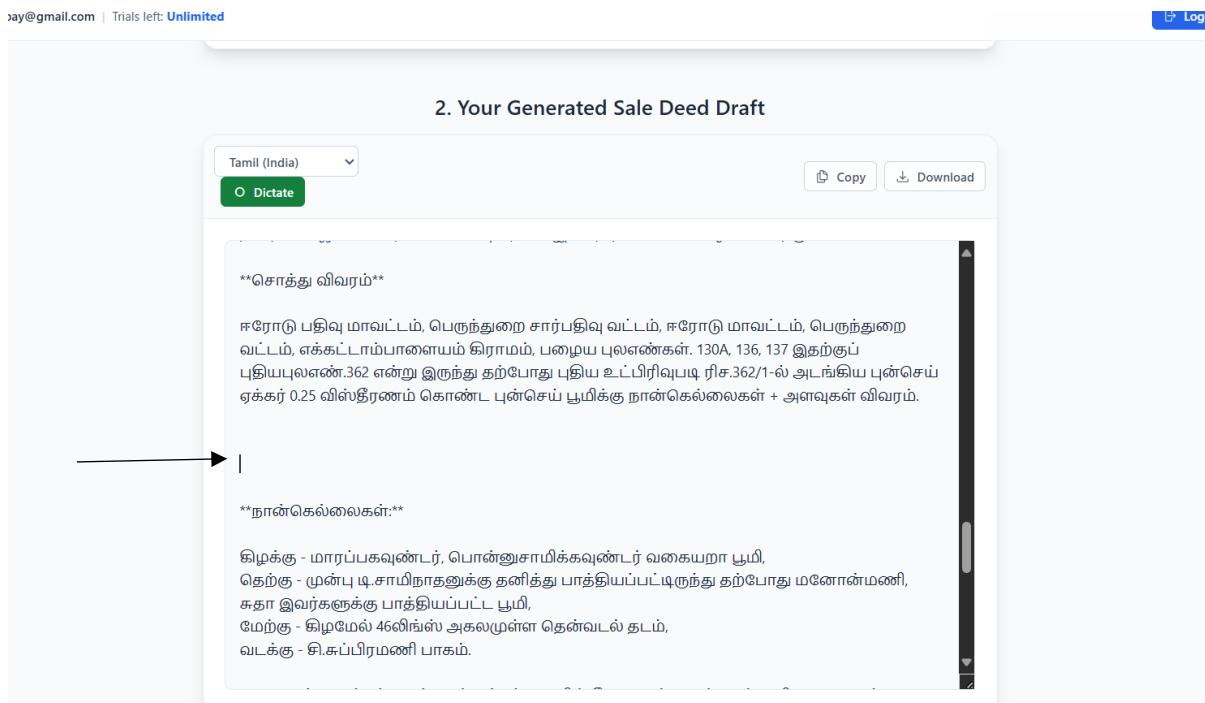

It will load for sometime and gives u the final sale deed draft by getting all the required details from the documents uploaded.

Now u can directly copy and paste it by checking it and adding some necessary details which are not in the documents or u can also use voice mode to add the details by speaking. For speaking u should click the dictate button and allow microphone access.

After giving the microphone access u can keep the cursor on the place where u need editing and speak

When you're speaking the details will be added to the draft.

The screenshot shows a web-based application interface for generating legal documents. At the top, it says "2. Your Generated Sale Deed Draft". Below this, there's a dropdown menu set to "Tamil (India)". A green "Dictate" button is visible. On the right, there are "Copy" and "Download" buttons. The main content area contains a large block of Tamil text, which is a generated sale deed draft. The text includes standard legal language like "சொத்து விவரம்" (Details), "பதிவு மாவட்டம்" (District), and "தற்போது உட்பிரிவுபடி ரீச.362-ல் அடங்கிய புள்செய் ஏக்கர் 0.25 வில்ஸ்திரணம் கொண்ட புள்செய் பூரிக்கு நான் கெல்லைகள் + அளவுகள் விவரம்". An arrow points from the text to the "Copy" button. At the bottom, there's a note about "நான் கெல்லைகள்" (My lands) and a disclaimer about liability.

Finally you can copy the draft or download it as a text file.

This screenshot shows the same application interface after a download has been completed. A download dialog box is open in the top right corner, titled "Downloads", showing a single file named "sale-deed-draft (3).txt". There are "Open file" and "See more" buttons. In the main content area, the generated sale deed draft is displayed. An arrow points from the "Download" button in the header to the download dialog. Another arrow points from the "sale-deed-draft (3).txt" file in the dialog back to the main content area, indicating the successful download.
